Beep Tiliage and Under-Braining. the soil in almost every section of the country where the drouth has prevailed to any considerable extent during the past considerable ext Intelligent and observing tillers of the past season, have been strikingly impressed with the surprising advantage to the growing crops arising from thorough drainage of heavy soils in connection with deep tillage and abundant fertilization of the seed-bed. When the water-line of a heavy soil that is disposed to be wet, is sunk by means of a system of thorough underly comminuted soil will retain a much targer quantity of moisture in dry and hot weather, than if there were no under-drains. As the soil is deepened by under-draining and deep season, if the seed-bed be broken up spread farther in every direction through the soil; sad as the mellow protracted drouth. Hence, many

## Ashes as a Cattle Feed.

In a late number of the Maine Farmer a gentlemen gives his experi- Hampton to make these engines haul man, "we would be very happy but Hembold's Fluid Extract of Buchu, ence in treating neat stock affected all his cotton to the river this season for one thing!" with a habit of eating wood, chewing when the weather is favorable. bones, &c. His cattle were one spring affected in this way, they became thin in flesh, refusing to eat hay, and presented a sickly appearance. He had an impression that their food lacked the constituents for making bone, but out noticing any good results whatever. Last spring he put about four his neighbors used bone meal, withbushels of leached ashes in his barnyard, and threw out to them about a shovel full each day. They all eat it will be the most economical investwith evident relish. After turning them out to pasture, he put one peck of dry ashes per week on the ground in the pasture. They ate it all up, and gnawed off the grass where it had been lying. The cattle began to improve, gaining flesh and looking bet-He says that this morbid appetite was unnoticed years ago, from the fact that the land was new and "ashey" and butter, without flesh of any kind, it has an admirable effect on the general system, often removing constipations. ter than they had for several years. from the burning of the wood and land clearings. He has another proof land clearings. He has another proof of the value of ashes for stock from this incident. He had a large tub full of leached ashes which remained it it stitute apples,-sound and ripe,-for for some time. It was afterwards pies, cakes and sweetmeats, with used as a watering tube and when the used as a watering tub; and when the cattle drank from it, they would lick ly stuffed, there would be a diminuand gnaw the sides and bottom of the tub, actually biting out pieces and in a single year, sufficient to lay in a eating them. Latterly he gives one stock of this delicious fruit for the quart of ashes mixed with the same whole season's use." quantity of sait, to twelve head of cattle, about once a week, and finds it to agree with them wonderfully.

Professor Jennings, of the Veterinary College of Philadelphia, says: A man to control a horse, must

Baulky Horses.

first learn to control himself." Baulking is the most aggravating of all faults to which the horse is subject, yet, by patience, perseverance and good management, even this habit can be broken up. They resist because we fail to make them understand what we require of them; or it may occur from overloading, sore shoulders, or working till tired out. Particular is this the case with young an-

As soon as a horse is made to understand what is required of him, he becomes a willing subject. To attempt to force him to do what he does not comprehend, or to use the whip under such circumstances, only excites him to more determined resistance. Professor Jennings' remedy, which fully sustains the opinion of other great horse students, is as fol-

"On the first attempt of your horse to baulk, get out, pat and reassure him 1867-6 with kind words, carefully examine the harness, then jump in and speak to him as if you expected him to go.

This is generally effectual."

Bentwright, the American horsetamer, says of this subject : "If you have a baulky horse it is is your own fault and not the horse's. If a team does not pull true there is some cause for it, and if you will remove the cause the effect will cease. When your horse baulks he is excited. and does not know what you want him to do." -- Our Dumb Animals.

For Fattening Poultry.

From Geyelin's valuable work on Poultry Breeding, we make the following extracts: When once poultry is penned up for fattening the diet ought not to be va-

There are three different ways adoped in feeding poultry for fattening 1. A free feeding, consisting of suplying a fowl with food and water ad ibitum. This takes much longer time, is more expensive, and less satisfactory in the flesh.

2. Forced dry feeding, which consists of cramming the fowl with pills of the poultaceous food twice or three times a day, and giving water ad lib-

3. Forced liquid feeding consists of reducing the poultaceous food to a liquid state with milk and water, then to borrow an umbrella. Moral phil pour it down the fowl's gullet by means of a funnel, three times a day and not to supply them with any more water.

PREPARATION OF THE FATTENING FOOD FOR FOWLS.

Barley meal, or mixed in equal quantity with Indian meal, made into a stiff paste with milk and water, Manufacturing Company's Fair, Macon, October 3. No orator announced.

Columbus Mechanical Industrial and Water before they are followed by the control of th This paste then is either made lifacilitate the swallowing.

Experiments have proved that the seasoning poultry food with bay salt produces the following advantages: 1. To render the fattening of shorter duration. 2. To produce, with the same quan-

tity of food, more flesh and fat. 3. To give the flesh greater firmness ngton, October 13. Hon. Robert and flavor, and to the fat more compactness and a finer grain. # The Great Medical Discovery

Dr. WALKER'S CALIFORNIA

FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and Refuse Liquors, declared, spiced, and sweetened to please the taste, called "Tonics" "Appetizers," "Restorers," &c., that lead the tippler onto drunkenness and ruin, but are a true Medicine, made from the Native Roofs and in Appetisers, "A Restorers," &c., that lead the tippler on to drumkenness and rain, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREATBLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters, according to directions, and remain long unwell.

© 100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Ghromic Kheumatism, and Gout. Dyspepsia, or Indigestion. Billous, Remittent, and Intermittent Fevers, Diseases of the Blood, Idver, Kidneys, and Bladder, these Bitters have been most anecessful. Such Diseased are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They invigorate the stomach, and stimulate the torpid liver and bowels, which render them of unequalled cheavy in cleaning the blood of all impurities, and imparting new life and vigor to the whole system.

© Dyspepsia or Indigestion, Headacne, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Stomach, Ead Taste in the Mouth, Billious Attacks, Palpitation of the Heart, Copious Discharges of Urine, Pain in the regions of the Kidneys, and a hundred other painful symptoms which are the offsprings of Dyspepsia, are cured by these Ritters.

Cleanse the Vithted Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in

follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

Why is it that so many children die under he age of five years! That a large propertion of children die under that age, has long been a subject of remark, and without a sat-isfactory cause ascertained, it is certain. Also, it is known that worms exist in the uman system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, cannot be too observing of the first systems of worms; for so sure as they exist, they can

SAFELY AND CERTAINLY smoved from the most DELICATE IN-FANT, by the timely use of B. A. Fahnestock's Vermifuge. It is perfectly harmless, contains no Mercury, being a

Purely Vegetable &composition, and may be administered with the utmost afety to children of all ages. Worm Confections, made more for the purpose of pleasing the palate than of over-coming the disease, have been mannfactured ail over the country, but their short lease of life is nearly exhausted, and B. A. Fahnes tock's Vermifuge continues to grew in favor daily. CAUTION.

Should occasion require you to purchase B A Fahnestock's Vermifuge, be particularly careful to see that the initials are B. A. FAVORABLY KNOWN SINCE 1829.

In placing this remedy before the public we will only refer to the following certificate which expresses all that we need say. And being from one who has experiened beneficial results from its use, after having given it a thorough trial, his words carry more weight than anything we could say.

DYSPL SIA REMEDY

GENTLEMEN: - For a number of years I was greatly afflicted with dyspepsia, and altho' my stomach craved food, it would immedi-ately, reject it, should I cat anything, no matter how small the quantity. I was frequently compelled to leave the table, without being able to take any nourishment. In a short time I became very much reduced in flesh, and was so weak that I was unable and unfit to attend to my business. My mind was in no better condition than my body, as 1 was continually oppressed with lassitude and depression of spirits. I tried all the patent medicines and prescriptions that I heard of, and some of these afforded me temporary relief, but in a short time I relapsed nto my former condition

While suffering in this manner, I heard of C. F. Galton's Dyspepsia Remedy, and concluded to try it. I had taken it but a short time when I began to feel relief, and continuing to take it, I soon could partake of my meals without any disagreeable feel-ing, either while at the table or afterward, and gained flesh rapidly. It is now nearly ten years since, and I have continued free from anything like a return of dyspepsis-

can therefore recommend it to any one suf-fering in like manner. Respectfully yours, ANDREW J. NICHOLSON. Pittsburgh, March 20, 1869. SCHWARTZ & HASLETT, (Formerly B. A. Fahnestock's Son & Co.,) Sole Proprietors,
